PRESIDENT: What was your...Senator Marsh you have the floor.

SENATOR MARSH: Mr. Speaker, is there any possibility that this can be advanced with 25 votes and then on Select File the other amendments offered? If there are 25 votes can we advance...

SENATOR BURBACH: I might report that in visiting with our Bill Drafting department this morning that he suggested that we move bills off General File and on to Select File as rapidly as possible so that they could do the E & R Initial work. This was suggested by him and I think that there are three amendments there and it is a question as to whether we do it at 11:30 or sometimes after 1:30. I think that that is the only question before us right now.

PRESIDENT: Senator F. Lewis, for what purpose do you rise?

SENATOR F. LEWIS: Mr. Chairman, if that is a motion I am objecting and I say that it would take a change of rules.

PRESIDENT: It is not a....are you making such a motion?

SENATOR F. LEWIS: No sir.

PRESIDENT: No, I meant Senator Marsh. That the bill be advanced?

SENATOR MARSH: Yes, I did make that motion.

PRESIDENT: The Chair rules that that motion is out of order.

SENATOR BURBACH: We are losing 14 members is this correct, or more?

CLERK: Mr. President I ask for unanimous consent for the E & R attorney to integrate all amendments to LB 69 and to prepare a final draft of the same. Signed, Senator Carsten.

PRESIDENT: Any objections? So ordered.

SENATOR BURBACH: Mr. Clerk in response to you I would say that we move on to E & R amendments that we have.

CLERK: Barnett unanimous consent to print amendment in the Journal. Dworak asks unanimous consent to print amendment in the Journal.

Mr. President, an explanation of vote. Had I been present I would have voted aye on LB610 signed Senator Swigart.

Mr. President, your committee on E & R reports that we have examined and reviewed LB32 and find the same correctly enrolled, 269, 386, 395, 553, 306 all correctly enrolled.

PRESIDENT: While the Legislature is in session and capable of transacting business I have signed LB32, 298, 306, 387, 395 and 553, and LR41.
